

# Fire and Stone #4 (Aliens)

**\*\*STRANDED SURVIVORS CLASH ALIENS FEAST!\*\*** Tying in with the Prometheus and Aliens films, this tale of stranded survivors and the tenacious xenomorphs that stalk them comes to a close! Scientist Derrick Russell makes more stunning discoveries about the strange planet the Hadleys Hope refugees crashed on, while Aliens close in on him! Each of the arcs in the Fire and Stone event continues to stamp their own unique mark on the overall story, and the crushing horror of this series pushes it right to the top of the reading pile every month. This is Aliens distilled down to its purest form, with Roberson and Reynolds each displaying a firm, confident grasp of precisely what makes these creatures so utterly terrifying. Essential reading for fans of the franchise, fans of horror, fans of sci-fi or just plain ol' comicbook fans. Captivating stuff from beginning to end, and I really cant wait to see how this particular arc wraps up.A?Big Comic Page
