

Build Your Own Pentium III PC

Build your own Pentium III PC and save a bundle! Why pay big bucks for a Pentium III system when legendary build-it-yourself guru Aubrey Pilgrim can help you construct one at home for a fraction of dealer prices? In *Build Your Own Pentium III PC* he gives you top-to-bottom, fully-illustrated instructions for assembling your own customized Pentium III powerhouse -- from selecting components to installing software. You get detailed, step-by-step assembly and installation instructions for mother boards, floppy drives, hard disks, memory modules, scanners, modems, CD-ROM and DVD drives, sound boards and more. Plus you'll find handy comparisons of the latest generation of chips -- including those from Intel plus the latest low-cost rockets from AMD and others -- along with all the tips and techniques you need to create, test and troubleshoot a sizzling state-of-the-art system. You don't need a technical degree or special tools. Just follow these simple guidelines and procedures and save hundreds in the process!
