

Funny Babies

In this collection of photographs, illustrations, and personal stories, you will meet some very silly little humans beings. Read about the antics of a chocolate-covered two-year-old who meets a hapless white-suited Paul McCartney in an elevator; the little comedian who can sit in front of a mirror, make faces, and laugh for hours; the toddler who introduces Mommy to a new friend - a dead squirrel! Included are the classic comical poses of the Everybaby: the tot learning to walk in moms high heels; the curious fellow who views the world upside down from between his legs. Enlivened with J. C. Soares light-hearted drawings, Funny Babies is for everyone who loves babies.
