

Garth Ennis Dan Dare Omnibus Volume 1 US Edition (v. 1)

Dan Dare was once a hero. He brokered peace with alien races, pushed the frontiers of space, and saved the planet from total annihilation... repeatedly. But now, his Space Fleet has disbanded, the United Nations has crumbled, his friends scattered to the solar winds. Britain is once again the world power, but Dare, disillusioned and disappointed by his once-precious home country, has quietly retired. But there's trouble mustering in Deep Space. The H.M.S. Achilles is picking up strange signals when, suddenly, an enormous fleet of hostile ships ambush the destroyer. Now, as the crew struggles to stay alive, they realize with horror that the hostiles have brought a weapon of unimaginable power. Dan Dare, the pilot of the future, has been called out of retirement. Whether you're joining the adventure for the first time, or you're already a Dan Dare fan, this hardcover collection of the entire seven-issue series is a perfect addition to any library.
