

The 2016 Tibetan YogaZombie Calendar: Explorations into the Shadow Archetype 1st Edition

The 2016 Tibetan YogaZombie Calendar sets the Stage for my next concept entitled, Ecklar the Black Knight of Ryan. The origins of my work always happen while I am alone adventuring deep in Nature. Places such as Yellowstone National Park, Craters of the Moon National Monument, the Teton, Gallatin & Sawtooth mountain ranges and many other planetary sites that invoke inspiration. Winter mountaineering works even better. The solace experienced is distilled further into Primordia Natura. The Tibetan YogaZombie Calendar is just an expression. The less it is labeled, the more one may come to their own interpretation. There is a saying. The moment you teach the child the name of the bird he is seeing, the child will never see that bird again. It is my hope that you, as personal as you can get, enjoy the awe of this world.
