

Final Strike (Executioner #285)

Terror Storm With a whatever it takes directive from the Oval Office, Mack Bolan is leading the counter offensive against a conspiracy to destroy American democracy. Rogue elements deep within U.S. intelligence circles have reached out to Americas worst enemies, North Korea and Iraq, and brought them into a plot of anarchy and mass destruction. While a doomsday army waits on the sidelines with backpack nukes and nerve gas, the preliminary bloodbath is unleashed by the Iraqi jihad, in a death sweep from New York to Chicago to Los Angeles. Battle lines are drawn as top American scientists and a hijacked U.S. spy plane are pressed into service for the enemy. But Bolan refuses to let them win. If they want to play, hell play. Its the Executioners game.
