

## Patent Litigation in Germany

Often, foreign companies are involved in patent litigation in Germany. The goal of this book is to focus on patent litigation in Germany while still touching a broad scope of issues in a way that gives the practitioner a quick overview. The book starts with the chapter on the European Patent with unitary effect and its Enforcement. Particular emphasis of this book is put on the broad field of patent infringement. Increasing numbers of patent litigation are conducted as IP arbitration, thus the book deals also with the particularities of arbitration proceedings in the area of IP.
