

## Marvel Masterworks: Inhumans - Volume 1 (Marvel Masterworks: the Inhumans)

The uncanny Inhumans come to the Marvel Masterworks at last! In 1965, Stan Lee and Jack Kirby gave a strange family of outcasts their debut in the pages of Fantastic Four. Responding to their Shakespearean pathos and Kirbys out of this world character designs, the fans loved them - and wanted more! The mysterious origins of Black Bolt, Medusa, Gorgon, Triton, Karnak and the rest of their wondrous, secret world was initially revealed in a series of Thor features. But that only whetted readers appetites - and so came their first headlining series in Amazing Adventures! Launched by writer/artist Jack Kirby, the new series took the Inhumans to their roots, defending their kingdom against the aggressions of mankind - especially against the ultimate threat of the Mandarin. Then a team with uncanny credentials, Roy Thomas and Neal Adams, took up the crown and sent the Inhumans on a mythical exodus into the world of man. It was a saga exploring the social issues of the era and, of course, topped off with a heavy dose of Inhuman action! Also featuring a rare Medusa and Black Bolt tale from Marvel Super-Heroes and a trio of satirical tales from Not Brand Echh by Stan, Jack and their blushing Bullpen! Collecting THOR #146-152, AMAZING ADVENTURES #1-10, THE AVENGERS #95 & MARVEL SUPER-HEROES #15 with bonus selections from NOT BRAND ECCH #6 & 12.
