

America 24/7

An American time capsule: From the original creators of the Day in the Life book series comes America 24/7, an epic project harnessing the talents of more than 25,000 photographers. The America 24/7 team of first-time digital photographers, photography students, top international photojournalists and newspaper shooters—including 36 Pulitzer Prize winners—took extraordinary pictures of an ordinary American week during a pivotal period in our nation's history. In homes, schools, factories and farmlands across America, they wove a rich tapestry of American life. This once in a generation collection of more than 1200 stunning photographs is a touchstone of contemporary photojournalism and a must have album for every American home.
