

## The Law and Legal Service Plans: Discover The World Of Economical Legal Advice (The Road To Financial Independence)

DISCOVER THE SECRET WORLD OF ECONOMICAL LEGAL ADVICE! Reader quote...THIS BOOK IS BETTER THAN HAVING A LAWYER IN THE FAMILY Most of the public does not know about legal service plans and how they can provide tremendous savings, security, and protection with legal plan services. Also, most of the public is uninformed as to how much legal risk they face and how costly legal services can be even for minor legal events. Many millions of people forego their legal rights and make costly decisions because they do not retain law firms. Our society is extremely litigious with a lawsuit now filed in the U.S. every 12 seconds. The average cost of an attorney or lawyer in the U.S. by some estimates is approximately \$285 per hour. Some lawsuits end up costing hundreds of thousands of dollars. And these events occur due to accidents and other unplanned circumstances. To maintain your assets and protect yourself against expensive legal occurrences the practical person needs to protect themselves and their family to maintain your security. This book describes 10 key legal areas that virtually everyone needs to have legal protection for and how to have these services available for less than one dollar per day. These services are available from several sources of legal plans and the author suggests that you perform your research to select the plan that best suits your needs. Upon request the author will share his recommendations with you at no charge. The author has had many years of experience with many different legal matters and acts as a consultant to small business and individuals on these and other subjects relating to achieving and maintaining financial independence. This is the first in a series of four books planned on the topic of creating assets, managing and protecting your wealth.
