

## The Law of Patents, Third Edition (Aspen Casebook)

A lean yet comprehensive casebook on the law of patents that features helpful introductory text, technologically-accessible cases, detailed comments, comparative and policy perspectives, and statutes. Incorporates the America Invents Act, the most sweeping changes to the patent statute since 1952. The move from a first-to-invent priority system to a first-inventor-to-file system. Significant changes to 35 U.S.C. section 102. Post-grant review of patent applications. Inter-partes review of patents. Important new Supreme Court and Federal Circuit cases, including Myriad Genetics, Prometheus Labs, Global Tech, Akamai, Bowman, Actavis, and Therasense. Updated Comments and Comparative and Policy Perspectives. New and updated PowerPoint slides and website.
