

## Path to War (Superbolan)

Stomping Grounds War for sole ownership of blood-soaked Angola has begun, but now the ruthless shadow hand is a cabal of former CIA-DOD top operatives calling themselves Phoenix Consortium. Backed by millions in stolen black funds, the goal is a new world order, gained by control of the world's oil and diamond monopolies. It's a despotic vision that requires partnerships in the right places: the North Koreans willing to trade suitcase nukes for a piece of the new world order; Arab fanatics willing to buy into any kind of war that guarantees spilled American blood; and an army of former special ops mercs with no loyalties. It's an agenda of human savagery at its worst, unleashed by traitors to the country they pledged to serve. And it deserves nothing less than justice at the hands of Mack Bolan.
