

How To Take A Picture Of A Picture: Product Photography Tips

Have you ever tried to take a picture of a picture and dealt with horrible reflections from the glass? This is all about answering the question of how to minimize and even totally get rid of those reflections. This will also work for taking photos of someone wearing glasses, its the same concept. When you finish this, youll know the top ways to get around nasty reflections in picture frame glass, or any other reflective surface for that matter.
