

# The Illustrated Directory of Warships: From 1860 to the Present

Covering every major warship type from the American ironclads of the 1860s through today's super-sophisticated aircraft carriers, this fact-filled directory describes more than 200 fighting vessels, providing technical specifications along with development and service histories. Intricately detailed full-color drawings vividly bring the warships to life, while contemporary photographs depict the vessels at sea and in combat.
