

Corsica Walk & Eat Series (Walk and Eat)

This pocket-sized full-colour guide to walking in Corsica is designed for visitors who would like to do some fairly easy walking as opposed to tackling the more difficult routes described in Landscapes of Corsica. It is ideal for high season, when strenuous routes may be too hot, or for those travelling with children. Even non-walkers will appreciate the recommendations for eating out in Corsica. For each suggested restaurant there is a photograph of the decor and one of their dishes, plus sample menu, price guide, opening times and a recipe for one of their specialities. Other sections include: planning your trip, logistics on arrival, local markets and specialities, glossary of local food terms, and a restaurant mini-vocabulary. A special feature is the emphasis on natural local foods suitable for those with food intolerances. All recipes have been made by the authors and are known to work. Area covered: There are walks all around the island. Note: There is some overlapping of walk routes between this book and Landscapes of Corsica. Do use the Look Inside facility to compare coverage in the two guide books. Best months for walking in Corsica: In May and June the countryside is enlivened with a tapestry of wild flowers and maquis in bloom. The hills are ablaze with colour and the air is intoxicatingly-scented by the maquis. September and October are also fine.
