

The Message from Water

See how spoken and written words change the structure of water. This groundbreaking work from Dr Masuro Emoto shows us that what we say, and feel and well as what we listen to has an effect on water, and because we are made up of water, it has an effect on us. Wonderful color photography shows how water reacts in the presence of both spoken and written words. This imagery was recently utilized in the movie *What The Bleep Do we Know*. This work has also been referenced by Wayne Dyer, Lee Carol, Gregg Braden, Drunvalo Melchizedek, and Jonathan Goldman to name a few.
